Count, Time & Place! – Game Instructions

A printable English board game for practising numbers, telling the time and prepositions.

What you need

The printed board, one die and a game piece for each player.

How to play

Place your game pieces on START. Take turns rolling the die and moving along the path. Complete the challenge on the square where you land. The first player to reach FINISH wins.

The three challenges

Yellow squares – Prepositions
Look at the illustration. Say a preposition that describes where the person or object is, then use it in a sentence. For example: “The boy is behind the box.”

Green squares – Counting
Count aloud using the numbers shown. For a range such as 21 to 30, say the numbers in order. For 10, 20, 30, 40, etc., continue counting in tens. If the square asks for odd or even numbers, name a few examples.

Pink squares – Telling the time
Look at the analogue or digital clock and say the time in English. For example: “It’s half past six” or “It’s six thirty.”

Adjusting the level

Beginners can give short answers. More advanced learners can use full sentences, different ways of telling the time or additional prepositions. Accept different answers when they are correct for the picture or task.
